Introduction

1.0 Introduction

The Installation Guide provides the instruction needed to install and use your shock mount.

2.0 Installing the Notebook onto Shock Mount.

You must follow the step by step to install the notebook onto the shock mount.

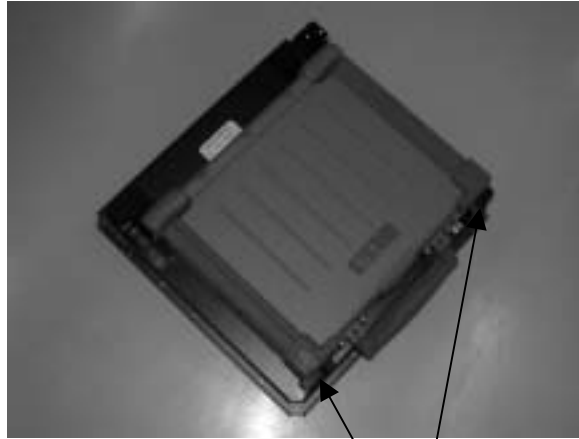

Step 1:

Push the two latches backward to the end of its stroke.

Step 2:

Place the A760S/A770 with the front part slanting towards the shock mount first and align pin with two sides of the bracket. Then, position the rear part on the shock mount.

Bracket

Step 3:

Align Pin

Slide the notebook into the two hooks in front of the shock mount, and make sure that they are well matched. Fasten the two latches.

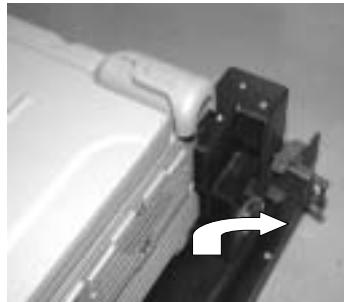

Step 4:

When those steps that mentioned are completed, then, open the display of notebook and power on the computer for use.

3.0 Remove the Notebook of the Shock Mount

Step 1:

Open the latch. (A760S Only)

A770:

For 14.1"

For 12.1" & 13.3"

Step 2:

Position the latch. (See direction of arrow)

Step 3:

Push the rear holder. (See direction of arrow)
