- Full magnesium alloy case
- Sealed ports and connector
- Sunlight readable LCD screen
- WLAN, WWAN and Bluetooth
- Fan-less design
- Industry's-best 5 year bumper-to-bumper warranty

The Getac M230 Fully Rugged Notebook

The M230 combines the processing power of an Intel® Core™2 Duo processor with optional nVidia Graphics chip making this a powerhouse platform for those customers requiring extensive graphics processing power in a slim fully-rugged design.

Equipped with 14.1 or 15 inch sunlight readable LCD screen, the M230 is designed for use in a work environment where direct sun would render a standard computer un-usable. Built-in WLAN with optional WWAN communication allows users to maintain network access for real-time data exchange.

In demanding and uncontrolled environments, security is always a concern. The M230 offers a built-in TPM chip and optional smart card reader to protect and secure your valuable data.

Its magnesium alloy case, Shock-mounted HDD, waterproof keyboard and touchpad make the M230 MIL-STD 810G and IP65 compliant and one of the toughest, feature-rich rugged Notebooks on the market. The Getac M230 is covered by the industry's-best 5 year bumper-to-bumper warranty.

The M230, with its rugged design and powerful software tools, is built to handle the task wherever your job takes you.

Expansion Slot Options	PCMCIA Type II x 2 or Type III x 1 PCMCIA Type II x 1 + smart card reader		

Specification subject to change without notice.

Battery life testing conducted under BatteryMark 4.0.1. Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.

* Computers configured with a 32-bit operating system can address up to 3GB of system memory. Only computers configured with a 64-bit operating system can address 4 GB or more of system memory.

** For storage, 1GB = 1 billion bytes; actual formatted capacity less.

*** Weight varies by configuration and manufacturing process.

† Industry's best 5 year bumper-to-bumper limited warranty standard. For warranty terms and conditions visit www.getac.com
